

Tido Pro Series — 1:1 Print & Cut Template

Find the appropriate Tido Pro series product size for your shelves

A simple four-step test can perfectly match your Tido Pro series model.

Step 1: Print using A4 paper (210x297mm)

Print at 100% actual size - do not select "fit to page" or "enlarge beyond page size".

Step 2: Verify the size

Measure the 100mm scale bar with a ruler. If the reading is exactly 100mm, it indicates that the printed size is correct.

Step 3: Cut

Cut along the dotted lines the required template.

Step 4: Test

Place each cut piece on the edge of the shelf. Select the correct model size according to your needs.
